CAREER OBJECTIVE

Motivated **MCA student** and **Backend Developer** with hands-on experience in building scalable and secure **RESTful APIs** using **Node.js, Express.js, TypeScript, Sequelize, PostgreSQL, and MongoDB**. Currently working on a real-time **ERP solution (ERP365)** focused on accounting, invoicing, taxation, and inventory management. Seeking an **entry-level Backend Developer / Software Developer** role to contribute to real-world products and grow within a dynamic organization.

SKILLS

- **Programming Languages:** TypeScript, JavaScript, Java
 - **Backend Technologies:** Node.js, Express.js, Sequelize
 - **Databases:** PostgreSQL, MongoDB
 - **Frontend (Basic):** React, HTML5, CSS3
 - **Concepts:** REST APIs, MVC Architecture, CRUD Operations, Authentication (JWT), API Integration
 - **Tools:** Git, GitHub, Postman, VS Code
 - **Devops:** Linux, Docker, Kubernetes (Basics), Nginx
-

EXPERIENCE

Backend Developer

Opticodes Technologies Pvt. Ltd. | Feb 2025 – Present

- Designed and developed RESTful APIs using Node.js, Express.js, and TypeScript for multiple business modules.
 - Built and maintained backend logic for CRUD operations, validations, and data workflows across various application modules.
 - Designed and managed PostgreSQL schemas, optimized queries, and handled both relational and non-relational data efficiently.
 - Performed bug fixing, API testing, debugging, and performance optimization to improve system reliability.
 - Collaborated with frontend developers for seamless API integration and feature delivery in production environments.
-

PROJECTS

ERP365 (Enterprise Resource Planning System) - <https://erp365.in>

- Working on a real-time ERP solution for business operations, accounting, and compliance management.

- Developed and maintained backend modules using Node.js, Express.js, TypeScript, Sequelize, and PostgreSQL.
 - Implemented key business features including:
 - Sales Management
 - Invoice Processing
 - GSTR-1 JSON Generation
 - E-Invoicing (IRP)
 - Ledger Management
 - Inventory Handling
 - Built and optimized RESTful APIs for:
 - Document generation
 - Tax compliance workflows
 - Transaction-based data processing
 - Multi-user business operations
 - Worked on backend logic for accounting workflows, GST-related data generation, and invoice lifecycle management
-

EDUCATION

- **MCA**, MPEC Kanpur (2023-2025)
- **B.Sc.**, CSJM University (2019-2022)
- **Intermediate**, UP Board (2018-2019)
- **High School**, UP Board (2015-2016)
